

To the Members of the California State Assembly:

I am returning AB 1832 without my signature.

Driving under the influence (DUI) is a serious crime that results in the deaths of thousands of Californians each year. I firmly believe that we need to identify and provide the courts with the ability to employ effective new solutions that will help put an end to this continuing problem which has devastated the lives of many families in this state. However, this bill lacks any procedural provisions that would further the state's ability to control or deter criminal behavior and instead provides legislative findings and declarations relating to options that are already available to judges under current law.

I am confident that the judges who review DUI cases on a daily basis and personally witness the horrible impact of this crime on victims and their families are already aware of the need to use every method available to them, including a wide range of monitoring systems, in order to put an end to this chronic problem.

For these reasons, I am returning this bill without my signature.

Sincerely,

Arnold Schwarzenegger
